Personal Statement

Michael Langley

I have served the stakeholders of MDUSD in different capacities since August 1989. I wish to continue. I believe that it is everyone's responsibility to protect and strengthen public education. To do so, one must be prepared to give one's time and energy. I bring a varied set of experience to the table. My military background emphasized team building to accomplish the mission. My classroom experience helped reinforce my communication skills. Working on WASC visiting teams around the State of California gave me insight concerning all the necessary elements required to build a fully accredited school beyond the classroom. As an AP Economics teacher, I have a strong background in basic finance, which was augmented by a summer institute course on school finances. I believe I can be a strong advocate as a community member.
