## Personal Statement

I think it's important to have some people of bond oversight experience on the Measure J BOC. I've served on the Measure A Advisory Committee, the 2002 Measure C and the 2010 Measure C BOC's. I think having this much experience and knowing the rules and purposes of bond oversight committees as well as being familiar with the Brown Act will help the new committee get started on its assigned task and can help the new comers get a quicker understanding of the task-at-hand.

## Brief Resume

I have worked as a programmer since 1968 in various fields including: computational fluid dynamics, data analysis, statistical analysis, mathematical modeling, and database programming. I am currently employed doing most of my work in data analysis, model testing, and database work.
